19	Housing options is a close 4th on this list	9/20/2017 3:55 PM
20	If we want young people w/family to come settle on the Island, we better create some affordable housing. We also need to provide the best possible education experience. A fast internet is necessary in this modern world, many young people make their living off the internet and a good service could help entice young people.	9/20/2017 3:01 PM
21	Safety- Fire & Ambulance	9/20/2017 10:46 AM
22	Protecting our fresh water supply	9/20/2017 10:35 AM
23	Chebeague does not have a "sustainability problem. Chebeague is only a few minutes away from the mainland and the many job opportunities available there. We run the risk of losing the rural character of the island if we encourage just any kind of business to locate next door to us. Let's not forget that we are now being inundated with people already for several months of the year. We need to look at different forms of raising revenue besides regressive property taxes.	9/20/2017 10:12 AM
